Independent Auditors' Report

The Retirement Board and Participants
Massachusetts Bay Transportation Authority Retirement Fund:

We have audited the accompanying financial statements of the Massachusetts Bay Transportation Authority Retirement Fund (the Fund), as of and for the years ended December 31, 2019 and 2018 and the related Notes to the Financial Statements, which collectively comprise the Fund's basic financial statements for the years then ended as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Massachusetts Bay Transportation Authority Retirement Fund as of December 31, 2019 and 2018 and the changes in fiduciary net position for the years then ended in accordance with U.S. generally accepted accounting principles.

Other Matter

Required Supplementary Information

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis and the required supplementary information as listed in the accompanying table of contents (collectively referred to as RSI) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

This section presents Management's Discussion and Analysis (MD&A) of the Massachusetts Bay Transportation Authority Retirement Fund's (the Fund or MBTARF) financial activity and performance as of and for the years ended December 31, 2019 and 2018. The MD&A is unaudited and is intended to serve as an introduction to the Fund's basic financial statements, as well as to offer readers of the Fund's financial statements a narrative view and analysis of MBTARF's financial activities.

Financial Reporting Structure

The financial statements include the statements of fiduciary net position and changes in fiduciary net position. They present the financial position of the Fund as of December 31, 2019 and 2018 and its financial activities for the years then ended. The notes to the financial statements provide further information that is essential to a full understanding of the financial statements. The notes describe the significant accounting policies of the Fund and provide detailed disclosures on certain account balances. The required supplementary information includes the schedules of changes in net pension liability and related ratios, investment returns, contributions and related notes as prescribed by the Governmental Accounting Standards Board (GASB).

The Fund's financial statements are prepared on an accrual basis of accounting. This method of accounting requires recognizing and recording financial transactions when they occur and not just in conjunction with the inflows and outflows of cash.

The total assets managed by the Fund are held in the trust for the payment of pension and related benefits to its members. The Fund's Board of Trustees, in its fiduciary capacity, with assistance from its consultants established the Fund's investment policies and oversees their implementation.

Financial Highlights

Year ended December 31, 2019

The net position of the Fund increased \$164.4 million, or 11.34%, from \$1,449.7 million as of December 31, 2018 to \$1,614.1 million as of December 31, 2019.

Net investment income increased \$305.8 million, or 587%, from (\$52.1) million for the year ended December 31, 2018 to \$253.7 million for the year ended December 31, 2019. The Fund had a 18.4% rate of return for the year ended December 2019 compared to a (3.08)% rate of return for the year ended December 31, 2018. The returns identified in the MD&A are gross of fees with the exception of hedge funds, which are net of fees.

The total contributions received during the year ended December 31, 2019 were \$139.6 million compared to total contributions received during the year ended December 31, 2018 of \$124.6 million.

Employer contributions during the year ended December 31, 2019 increased \$11.3 million or 12.3% to \$103.3 million from \$92 million during the year ended December 31, 2018.

Member contributions were \$36.4 million during the year ended December 2019, an increase of \$3.8 million or 11.7% over year ended December 31, 2018 member contributions of \$32.6 million.

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

Benefits paid during the year ended December 31, 2019 were \$220.6 million an increase of \$2.2 million, or 1%, over the benefits paid during the year ended December 31, 2018 of \$218.4 million. This increase is primarily due to the rise in number of retirees and lengthening life span.

Year ended December 31, 2018

The net position of the Fund decreased \$153.5 million, or (9.57)%, from \$1,603.2 million as of December 31, 2017 to \$1,449.7 million as of December 31, 2018.

Net investment income decreased \$273.8 million, or (123.5)%, from \$221.7 million for the year ended December 31, 2017 to (\$52.1) million for the year ended December 31, 2018. The Fund had a (3.08)% rate of return for the year ended December 2018 compared to a 15.80% rate of return for the year ended December 31, 2017. The returns identified in the MD&A are gross of fees with the exception of hedge funds, which are net of fees.

The total contributions received during the year ended December 31, 2018 were \$124.6 million compared to total contributions received during the year ended December 31, 2017 of \$113.2 million.

Employer contributions during the year ended December 31, 2018 increased \$8.6 million or 10.3% to \$92 million from \$83.4 million during the year ended December 31, 2017.

Member contributions were \$32.6 million during the year ended December 2018, an increase of \$2.8 million or 9.4% over year ended December 31, 2017 member contributions of \$29.8 million.

Benefits paid during the year ended December 31, 2018 were \$218.4 million an increase of \$9.4 million, or 4.5%, over the benefits paid during the year ended December 31, 2017 of \$209.0 million. This increase is primarily due to the increased number of retirees and lengthening life span.

Year ended December 31, 2017

The net position of the Fund increased \$117.6 million, or 7.92%, from \$1,485.6 million as of December 31, 2016 to \$1,603.2 million as of December 31, 2017.

Net investment income increased \$134.9 million, or 155%, from \$86.8 million for the year ended December 31, 2016 to \$221.7 million for the year ended December 31, 2017. The Fund had a 15.80% rate of return for the year ended December 2017 compared to a 6.88% rate of return for the year ended December 31, 2016. The returns identified in the MD&A are gross of fees with the exception of hedge funds, which are net of fees.

The total contributions received during the year ended December 31, 2017 were \$113.2 million compared to total contributions received during the year ended December 31, 2016 of \$105.0 million.

Employer contributions during the year ended December 31, 2017 increased \$6.2 million or 8.0% to \$83.4 million from \$77.2 million during the year ended December 31, 2016.

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

Member contributions were \$29.8 million during the year ended December 2017, an increase of \$2.0 million or 7.2% over year ended December 31, 2016 member contributions of \$27.8 million.

Benefits paid during the year ended December 31, 2017 were \$209.0 million an increase of \$13.3 million, or 6.8%, over the benefits paid during the year ended December 31, 2016 of \$195.7 million. This increase is primarily due to the increased number of retirees and lengthening life span as well as the voluntary separation incentive program offered by the MBTA.

Financial Analysis

The following schedules report the condensed comparative fiduciary net position and activities for the Fund as of and for the years ended December 31.

Condensed Comparative Fiduciary Net Position

(Dollar values expressed in millions)

		December 31		
		2019	2018	2017
Cash	\$	4.2	4.2	4.2
Receivables		7.7	6.2	5.8
Investments		1,608.9	1,445.8	1,616.9
Cash collateral on securities lending	_	22.5	49.9	38.8
Total assets	_	1,643.3	1,506.1	1,665.7
Cash collateral on securities lending		22.5	49.9	38.8
Accounts payable and accrued expenses		5.1	5.2	5.2
Payable for investments purchased	_	1.6	1.3	18.5
Total liabilities		29.2	56.4	62.5
Net position – restricted for pension				
benefits	\$ _	1,614.1	1,449.7	1,603.2

Total assets at fair value were \$1,643.3 million as of December 31, 2019, an increase of \$137.2 million, or 9.1%, over the year ended December 31, 2018 and were \$1,506.1 million as of December 31, 2018, a decrease of \$159.6 million, or (9.6)%, over the year ended December 31, 2017. At year-end 2019, investments at fair value were \$1,608.9 million, an increase of \$163.1 million, or 11.3%, over the year ended December 31, 2018, which were valued at \$1,445.8 million, a decrease of \$171.1 million, or (10.6) %, over the year ended December 31, 2017. This investment increase in 2019 is due to solid market returns in all asset classes. The Federal Reserve lowered the Federal Funds interest rate three times boosting domestic equity markets. In addition, fixed income and international equities contributed healthy returns.

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

As of December 31, 2019, cash collateral on securities lending decreased by \$27.4 million or (54.9)%, over the year ended December 31, 2018. The cash collateral on securities lending increased by \$11.1 million or 28.6% between December 31, 2017 and December 31, 2018. Receivables increased by \$1.5 million, or 24.2%, over the prior calendar year. Between December 31, 2017 and December 31, 2018 receivables increased by \$0.4 million, or 6.9%.

Total liabilities as of December 31, 2019 decreased by \$27.2 million, or 48.2% over the prior year, and decreased by \$6.1 million, or (9.8%) during calendar year 2018. The cash collateral on securities lending decreased by \$27.4 million, or (54.9%), in calendar year 2019 and increased by \$11.1 million, or 28.6%, in calendar year 2018. Payable for investment purchased increased by \$0.3 million, or 23.1% over the year ended December 31, 2019. Payable for investment purchased decreased by \$17.2 million or (93.0%) during calendar year 2018.

Condensed Comparative Statement of Changes in Fiduciary Net Position

(Dollar values expressed in millions)

		December 31

Additions to Plan Fiduciary Position

For the calendar year ended December 31, 2019, employer contributions increased by \$11.2 million and member contributions increased by \$3.8 million. For the calendar year ended December 31, 2018, employer contributions increased by \$8.6 million and member contributions increased by \$2.8 million. Effective July 1, 2019, the employer's contribution rate changed from 22.6811% to 25.1261% and the member contribution rate changed from 8.0089% to 8.8239%, resulting in a 10.8% and 10.2% increase, respectively. Effective July 1, 2018, the employer's contribution rate changed from 20.0111% to 22.6811% and the member contribution rate changed from 7.1189% to 8.0089%, resulting in a 13.3% and 12.5% increase, respectively.

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

Contributions are required to provide benefits and meet administrative expenses and are made jointly by the Massachusetts Bay Transportation Authority (the Authority) and members. The member contribution percentage is negotiated periodically as part of the collective bargaining agreement. There was a net investment gain in 2019 of \$253.7 million compared to a \$52.1 million net investment loss in 2018 and \$221.7 million net investment gain in 2017. This is a result of a change in the fair value of the investment portfolio due to the markets experiencing solid gains.

Deductions from Fiduciary Net Position

Benefits paid increased by \$2.2 million and \$9.4 million, or 1% and 4.5%, over the years ended 2019 and 2018, respectively. These increases continue to be primarily due to the rise in number of retirees and lengthening life span. Administrative expenses increased from \$4.3 million to \$5.0 million, an increase of \$0.7 million or 16.3% over year 2018 and decreased \$0.2 million, or (4.4) % over year 2017.

Net Pension Liability (NPL)

The Fund retains an independent actuarial firm, Buck Global, LLC, to conduct annual actuarial valuations to monitor net pension liability.

As of December 31, 2019, and 2018, the fiduciary net position as a percentage of the total pension liability was 53.43% and 49.70%, respectively.

Investment Performance 2019

The Fund began the calendar year 2019 with a net position of \$1,449.7 million and ended the calendar year with a net position of \$1,614.1 million, representing a 11.3% increase. The Fund invests strategically to achieve the actuarial rate of return; while controlling risk through diversification of asset class exposure. The primary determinant of long-term investment performance is the strategic asset allocation policy.

Domestic equity (31.5%), international equity (13.2%), fixed income investments (24.2%), and cash equivalents (4.0%) comprise approximately (72.9%) of invested assets as of December 31, 2019. The remaining (27.1%) of assets are invested in real estate (8.8%), and alternative investments (18.3%), which include private equity, absolute return, and diversified beta. These assets are expected to earn enhanced returns and manage risk through further diversification.

Investment performance results are measured by the relationship of the Fund's portfolio returns for equity and fixed income investment against widely accepted market indices. For the calendar year ended December 31, 2019, the MBTA Retirement Fund's total fund return was 18.4% compared to (3.08) % for the calendar year ended December 31, 2018. The 2019 increase in return is attributed to the positive gains experienced in all asset classes. The S&P 500, Dow Jones Industrial Average and the NASDAQ all had impressive annual returns.

The domestic large cap equity returned 30.6% compared to the S&P 500 Index of 31.5%. The domestic small cap equity returned 29.2% compared to the Russell 2000 Growth Index of 28.5% and the Russell 2000 Value Index of 22.4%. The global equity and emerging markets returned 32.0% compared to MSCI All Country World

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

Index of 26.6%. The international equity returned 23.0% compared to the MSCI EAFE Index of 22.0%. Fixed Income returned 7.1% compared to the BC Aggregate of 8.7%.

The total fund performance of 18.4% for calendar year 2019 outperformed by 210 basis points, the total fund custom index (a blended composition of major market indices in proportion to the Fund's asset allocation), which returned 16.3%.

Additionally, for the year ended December 31, 2019, the real estate portfolio returned 6.1% compared to the NCREIF Property Index of 6.4%. The hedge fund portfolio returned 15.1% compared to the CSFB/Tremont Hedge Fund Index of 9.3%. The opportunistic portfolio returned 16.3% compared to Bank of America/Merrill Lynch High Yield Benchmark return of 14.4%. The private equity active portfolio returned 13.7% and the legacy private equity portfolio returned 16.3% compared to State Street's Customized Benchmark return of 12.4%. State Street Customized Benchmark consists of 36% buyout, 9% venture, 37% debt and 18% fund of funds. Diversified Beta returned 18.7% compared to the 60% MSCI World Eq / 40% Barclays Aggregate Bond return of 20.0%. The 91 Treasury Bill Plus 300 Basis Points returned 5.3% for the year ended December 31, 2019.

Investment Performance 2018

The Fund began the calendar year 2018 with a net position of \$1,603.2 million and ended the calendar year with a net position of \$1,449.7 million, representing a (9.6)% decrease. The Fund invests strategically to achieve the actuarial rate of return while controlling risk through diversification of asset class exposure. The primary determinant of long-term investment performance is the strategic asset allocation policy.

Domestic equity (31.6%), international equity (11.3%), fixed income investments (27.0%), and cash equivalents (2.8%) comprise approximately (72.7%) of invested assets as of December 31, 2018. The remaining (27.3%) of assets are invested in real estate (9.4%), and alternative investments (17.9%), which include private equity, absolute return, and diversified beta. These assets are expected to earn enhanced returns and manage risk through further diversification.

Investment performance results are measured by the relationship of the Fund's portfolio returns for equity and fixed income investment against widely accepted market indices. For the calendar year ended December 31, 2018, the MBTA Retirement Fund's total fund return was (3.08)% compared to 15.80% for the calendar year ended December 31, 2017. The 2018 decrease in return is attributed to poor performance in the fourth quarter amid concerns of slowing economic growth and trade tension.

The domestic large cap equity returned (6.19)% compared to the S&P 500 Index of (4.38)%. The domestic small cap equity returned (7.34)% compared to the Russell 2000 Growth Index of (9.31)% and the Russell 2000 Value Index of (12.86)%. The global equity and emerging markets returned (1.88)% compared to MSCI All Country World Index of (9.41)%. The international equity returned (16.14)% compared to the MSCI EAFE Index of (13.79)%. Fixed Income returned (0.20)% compared to the BC Aggregate of 0.01%.

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

The total fund performance of (3.08)% for calendar year 2018 underperformed by 51 basis points, the total fund custom index (a blended composition of major market indices in proportion to the Fund's asset allocation), which returned (2.57)%.

Additionally, for the year ended December 31, 2018, the real estate portfolio returned 9.93% compared to the NCREIF Property Index of 6.72%. The hedge fund portfolio returned (12.60)% compared to the CSFB/Tremont Hedge Fund Index of (3.19)%. The opportunistic portfolio returned 7.87% compared to Bank of America/Merrill Lynch High Yield Benchmark return of (2.26)%. The private equity active portfolio returned 4.82% and the legacy private equity portfolio returned 3.21% compared to State Street's Customized Benchmark return of 8.70%. State Street Customized Benchmark consists of 36% buyout, 9% venture, 37% debt and 18% fund of funds. Diversified Beta returned (6.29)% compared to the 60% MSCI World Eq / 40% Barclays Aggregate Bond return of (5.07)%. The 91 Treasury Bill Plus 300 Basis Points returned 4.93% for the year ended December 31, 2018.

Other Information

As part of a Plan of Reorganization approved on March 27, 2014 in *In re: Fletcher Int'l, Ltd.*, No. 12-12796 (Bankr. S.D.N.Y.) (the Fletcher Bankruptcy), the Fund agreed with the Bankruptcy Trustee, Richard Davis, to pool claims against Alphonse "Buddy" Fletcher, Fletcher related entities, current and former officers, directors and insiders, and various third party professionals for recovery of the Fund's investment in Fletcher Fixed Income Alpha Fund (Alpha). A Judgement was obtained against Buddy Fletcher personally, which appears to be uncollectible. Confidential settlements were also reached by the Trustee with other Fletcher related defendants. *See, e.g., MBTARF, et al. v. Citco Fund Services (Cayman Islands), Ltd., et al.*, Case No. 651446/2015 (New York Supreme Court).

Following the Trustee's report that the bankruptcy estate had been wound down and distribution of substantially all estate funds and moneys recovered on behalf of the estate had occurred, the Court entered its *Final Decree Pursuant to 11 U.S.C. Section 350 and Fed. R. Bankr. P. 2033 Closing the Chapter 11 Case*, and on March 21, 2019 the Fletcher Bankruptcy was officially closed. In December 2019, the Joint Voluntary Liquidators of Alpha in the Cayman Islands issued their final report and made their final distribution and repayment to the Fund in the sum of \$1,958,840.30. More complete reporting about the Fund's investment in Fletcher is found in prior Fund CAFR's. *See, e.g.,* Fund's 2013 CAFR at p. 19.

The Fund is also party to a Pooling and Cooperation Agreement with other investors in Weston Capital Partners Fund II (PII) and investors in Wimbledon Financing Master Fund Ltd (WFF). Both PII and WFF are funds previously managed by and Weston Capital Asset Management LLC (Weston). Weston and certain of its principals were the subject of an SEC consensual civil judgement in Florida on June 23, 2014 for an investment unrelated to PII. Civil litigation involving Weston and various related parties including insiders and investors is ongoing but winding down. A turnover proceeding filed by other Weston investors (Class TT) is also pending in New York. The Wimbledon Fund, SPC (Class TT) v. Weston Capital Partners Master Fund II, Ltd, et al., Supreme Court New York, Index No. 160576/2017. Criminal proceedings involving Weston insiders have resulted in guilty pleas and jury verdicts. See, e.g., USA v. Bergstein, et.al, No. 1:16-cr-746 (S.D.N.Y.) and USA v. Galanis, et. al., No. 1:16-cr-371 (S.D.N.Y).

Required Supplementary Information

Management's Discussion and Analysis

December 31, 2019 and 2018

(Unaudited)

For historical background on the Fund's investments in PII and White Oak Global Advisors, a PII investment assigned to the Fund, please see the Fund's 2013 CAFR at p. 19 and the Fund's 2015 CAFR at p. 31.

The Fund's investments in Alpha, Weston (White Oak) were all written down in full in prior fiscal years. The Weston (White Oak) funds remain in liquidation in the Cayman Islands.

The Fund is reporting on the pending litigation, liquidations and recovery efforts because of limited activity anticipated in those cases this coming fiscal year. Prospects for future recoveries are uncertain.

Contacting the MBTA Retirement Fund

This financial report is designed to provide a general overview of the Fund's investment results and financial condition of the Fund for the years ended December 31, 2019 and 2018. Please contact the MBTA Retirement Fund Office by emailing invest@mbtarf.com or by phone to 617-316-3800 for additional financial information or questions related to this report.

Notes to Financial Statements December 31, 2019 and 2018

(1) Description of the Fund

(a) General

The following description of the Massachusetts Bay Transportation Authority Retirement Fund (the Fund), a single employer defined benefit pension plan, provides only general information. Employees (members) should refer to the Pension Agreement for a more complete description of the Fund's provisions.

The Fund was established on January 1, 1948, under an agreement and declaration of trust (restated in October 28, 1980) by and among the Massachusetts Bay Transportation Authority (the Authority), Local 589, Amalgamated Transit Union, Boston Carmen's Union, and AFL CIO (collectively, the Union). The Fund was established as a contributory defined benefit retirement plan in accordance with the Pension Agreement, effective July 1, 1970, adopted by the Authority and the Union for the purpose of receiving contributions and providing pension benefits for its members and qualified beneficiaries.

The general administration and responsibility for the operation of the Fund are vested in a seven-member Retirement Board. The Board consists of three members appointed by the Authority (at least one of whom must be a member of the Authority's Board of Directors), two members appointed by the Boston Carmen's Union, Local Union 589 of the Amalgamated Transit Union, AFL-CIO, one member elected by vote conducted by the Authority for a term of three years by members of the Fund who are not members of the Boston Carmen's Union, Local Union 589 of the Amalgamated Transit Union, AFL-CIO, and one member, who has no vote and is known as the honorary member, who is elected, for such period as the Retirement Board may determine, by the other six members of the Retirement Board.

(b) Membership

The Fund covers all employees of the Authority except the MBTA Police, who are covered separately, and certain executives who elect coverage under an alternate plan. At December 31, 2019 and 2018, Fund membership consisted of:

2019	2018	_
6,813 (1	1) 6,841	(2)
5,507	5,392	
390	355	_
12,710	12,588	
	6,813 (5,507 390	5,507 5,392 390 355

- (1) Year 2019 includes 6,678 retirees and beneficiaries and 135 individuals receiving payments under Qualified Domestic Relation Orders (QDROs)
- (2) Year 2018 includes 6,714 retirees and beneficiaries and 127 individuals receiving payments under Qualified Domestic Relation Orders (QDROs)

(c) Funding Policy

Contributions required to provide benefits and meet administrative expenses are made jointly by the Authority and members. The member contribution rate was increased from 8.0089% to 8.8239% effective

Notes to Financial Statements December 31, 2019 and 2018

July 1, 2019 of pretax compensation. The Authority contribution rate was increased from 22.6811% to 25.1261% effective July 1, 2019. As of July 1, 2020, member contribution and Authority contribution rates will be 9.3339% and 26.6561%, respectively. These contribution rates were calculated based on the most recent actuarial valuation of plan benefits and the Memorandum of Understanding with the Authority. The terms of the Fund's obligations are part of the Pension Agreement contained in the annual report of the Fund. Only parties to the Pension Agreement can amend the terms. The contributions by members and the Authority have been developed to provide normal contributions, interest on the unfunded accrued liability, and administrative expenses.

(d) Benefits

The Fund provides for retirement, disability and death benefits in accordance with the Pension Agreement, as amended.

A summary of benefits is as follows:

(i) Normal Retirement Allowance

Condition for Allowance

Any member may retire at age 65. A member may remain in service after the stated retirement date.

Amount of Allowance

The normal retirement allowance equals 2.46% of 3-year average annual compensation multiplied by the years of service, such allowance not to exceed 75% of such average annual compensation.

(ii) Early Normal Retirement Allowance

Condition for Allowance

Any member hired prior December 6, 2012 and has completed at least 23 years of service may retire on an early normal retirement allowance.

Any member hired on or after December 6, 2012, has attained age 55 and completed at least 25 years of service may retire on an early normal retirement allowance.

Amount of Allowance

The early normal retirement allowance is computed in the same manner as a normal retirement allowance on the basis of the compensation and service to the time of retirement.

(iii) Early Reduced Retirement Allowance

Condition for Allowance

A member who has attained age 55 and has completed at least 20 years of service may be retired on an early reduced retirement allowance.

Amount of Allowance

The early reduced retirement allowance is an immediate allowance, commencing at the date of retirement, and is computed in the same manner as a normal retirement allowance on the basis of

Notes to Financial Statements December 31, 2019 and 2018

compensation and service to the time of early retirement, but reduced by 1/2 of 1% for each month of retirement prior to normal retirement date.

(iv) Disability Retirement Allowance

Condition for Allowance

Any member who has completed 4 years of service in case of disablement due to an occupational accident or sickness, or who has completed 6 years of service in case of disablement due to any other cause, and who has become totally and permanently incapacitated, mentally or physically, for the further performance of duty may be retired.

Amount of Allowance

Upon disability retirement, a member receives an allowance commencing immediately, which is computed as a normal retirement allowance on the basis of the compensation and service to the time of disability retirement and is not less than 15% of the member's 3-year average annual compensation.

(v) Vested Retirement Allowance

Condition for Allowance

Any member who has completed 10 years of service and who is not eligible for a retirement allowance is eligible for a vested retirement allowance, in lieu of a refund of his/her contributions with interest, in the event his/her employment terminates for reasons other than voluntary quit or discharge for cause.

Amount of Allowance

The vested retirement allowance is a deferred allowance commencing on the member's normal retirement date and equal to a percentage, not exceeding 100%, of the amount computed as a normal retirement allowance on the basis of the compensation and service to the time of termination; the applicable percentage is 5% multiplied by the number of years of creditable service, not in excess of 20, at the time of termination.

(vi) Survivor Benefit

Condition for Benefit

Upon the death of a member who has completed 10 years of service and who is survived by a spouse and/or dependent children designated to receive the deceased member's contributions with interest, a benefit may be elected by such survivor in lieu of the payment of the contributions with interest.

Amount of Benefit

If the deceased member had completed at least 10 but fewer than 23 years of service, the survivor's benefit, payable for life, is equal to the amount which would have become payable if the member had retired as of the date of his/her death and elected a 50% joint and survivor option in effect as of the date of death with the survivor as the designated person under the option. There is no reduction for early commencement.

Notes to Financial Statements December 31, 2019 and 2018

If the deceased member had completed at least 23 years of service, the survivor's benefit, payable for life, is equal to the amount which would have become payable if the member had retired as of the date of his/her death and elected a 100% joint and survivor option in effect as of the date of death with the survivor as the designated person under the option. There is no reduction for early commencement.

(vii) Accidental Death Benefit

Condition for Benefit

Upon the death of a member in service whose death results solely from an injury or injuries sustained in the performance of duty, and who is survived by a spouse designated to receive the deceased member's contribution with interest, an allowance shall be payable to said spouse.

Amount of Benefit

The accidental death benefit, payable for life, is equal to the amount which would have become payable to the member if the member had retired as of the date of his/her death on a disability retirement allowance. If there should be insufficient creditable service, the surviving spouse receives the minimum allowance available under the disability retirement provision.

(e) Fund Termination

In the event of termination of the Fund, all of the assets of the Fund shall be used for the benefit of members and retired members or their beneficiaries, and for no other purpose. Each member, and each retired member or their designated beneficiary in receipt of a retirement allowance, shall be entitled to such proportionate part of the assets of the Fund as the reserve, required for their benefits, bears to the total reserves required under the Fund as determined by the Massachusetts Bay Transportation Authority Retirement Board (the Retirement Board) on the basis of actuarial valuation. The Retirement Board may require all such members, and retired members or designated beneficiaries, to withdraw such amounts in cash or in the form of immediate or deferred annuities as it may determine.

(2) Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles (GAAP), as promulgated by the Governmental Accounting Standards Board (GASB).

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of additions and deductions during the reporting periods. Actual results could differ from estimates.

(c) Cash and Cash Equivalents

Cash and cash equivalents generally consist of cash on deposit with banks and financial institutions and highly liquid short-term investments, which have original maturities of three months or less. The Fund

Notes to Financial Statements December 31, 2019 and 2018

maintains its cash deposits with financial institutions, which management considers being of high credit quality and, by policy, limits the allocation of funds to any single major financial institution to minimize the Fund's amount of credit exposure.

(d) Revenue Recognition

Contributions are recognized pursuant to the contractual requirements of the Pension Agreement. Investment income is recognized as it is earned. Net appreciation (depreciation) in the fair value of investments is recorded as an increase (decrease) to investment income based on the valuation of investments as of the date of the financial statements.

(e) Retirement Benefits and Refunds

Retirement benefits and refunds are recognized when they become due and payable.

(f) Investments

Investments are stated at fair value. Securities traded on national security exchanges are valued on the basis of the closing price as of the last business day of the reporting period. Securities traded in the over-the-counter market are normally valued at the mean of the closing bid and ask prices. Securities listed or traded on certain foreign exchanges whose operations are similar to the U.S. over-the-counter market are valued at the price within the limits of the latest available current bid and ask prices deemed best to reflect current value. Gains and losses on sales of investments are determined on the basis of average cost.

Investments in real estate represent the Fund's percent ownership in private real estate funds. The Fund's investments are valued based on estimates by the Fund's management as a result of their review of financial information of the underlying real estate investment assets and standards established by the real estate industry, generally using the net asset value of the underlying investment as a practical expedient.

Investments in alternative investments and hedge funds include the Fund's percent ownership in venture capital, leveraged buyouts, private placements, hedge fund-of-funds, and other investments where the structure, risk profile, and return potential differ from traditional equity and fixed income investments. These investments are included in the statement of fiduciary net position at estimated values determined in good faith by the Fund's management, generally using the net asset value of the underlying investment as a practical expedient.

Purchase and sales of investments are selected on a trade-date basis.

(g) Derivatives

A derivative is an investment agreement or security with a value that depends on, or is derived from, the value of an underlying asset, reference rate, or financial index. The Fund has classified its investment in forward exchange contracts as investment in derivative instruments. A forward exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The Fund utilizes forward foreign exchange contracts to minimize the effect of fluctuating foreign currencies. Risk associated with such contracts includes movement in the value of a foreign currency relative to the U.S. dollar. Realized gain or loss on forward exchange contracts is the difference between the original contract and the closing value of such contract and is included in the statement of changes in fiduciary

Notes to Financial Statements December 31, 2019 and 2018

net position. At December 31, 2019 and 2018, the Fund held open forward exchange contracts of varying amounts and currencies. Unrealized gains and losses are not significant to the financial statements.

(h) Currency Translation

As a result of having assets and liabilities denominated in foreign currencies, the Fund is exposed to the effect of foreign exchange rate fluctuations. Assets and liabilities denominated in foreign currencies and commitments under forward foreign exchange contracts and currency options are translated into U.S. dollars at the mean of the quoted bid and ask prices of such currencies against the U.S. dollar. Changes in foreign exchanges are reflected directly in income. Purchases and sales of portfolio securities are translated at the rates of exchange prevailing when such securities were acquired or sold. Income and expenses are translated at rates of exchange prevailing when accrued. It is not practical to isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market price of securities during the period. Net realized gains on foreign currency transactions represent net foreign exchange gains from holding foreign currencies, currency gains or losses realized between the trade and settlement dates on security transactions, and the difference between the amounts of dividends, interest, and foreign taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid.

(i) Income Taxes

The Fund is considered a qualified governmental plan under Internal Revenue Code Section 414(d) and, is generally exempt from federal and state income tax under the Internal Revenue Code Section 115.

(3) Cash Deposits, Investments, and Securities Lending

The Fund, in accordance with the declaration of trust agreement, is authorized to make deposits into checking and savings accounts and to invest in any form or type of investment, financial instrument, or financial transaction deemed prudent in the informed opinion of the Retirement Board. State Street Bank & Trust Company serves as the master custodian for the Fund's assets.

For the years ended December 31, 2019 and 2018, the Fund's essential risk information about deposits and investments is presented on the following tables.

(a) Custodial Credit Risk

Custodial credit risk is the risk that, in the event of failure of a depository financial institution, the Fund's deposits may not be returned. The Fund maintains its cash and cash equivalent deposits with various financial institutions, which management considers being of high quality. The Fund limits the allocation of its cash and cash equivalent deposits to any single financial institution to minimize the Fund's exposure. The Fund's Board has not adopted a formal custodial credit risk policy.

The Fund's cash and cash equivalent deposits that are not collateralized are subject to the Federal Deposit Insurance Corporation (FDIC) insurance limits. At December 31, 2019 and 2018, \$3,841,810 and \$3,821,407 of the Fund's cash and cash equivalents deposits were in excess of the FDIC insurance limit.

Notes to Financial Statements December 31, 2019 and 2018

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Fund and are held by either the depository financial institution or the depository financial institution's trust department or agent but not in the Fund's name.

All of the Fund's investments are held by the Fund's custodian in the Fund's name, except for investments in hedge funds, real estate and alternative investments, which by their nature are not required to be categorized.

(b) Investment Policy

The Fund's investment objective is to achieve consistent positive real returns and to maximize long-term total return within prudent levels of risk through a combination of income and capital appreciation. The Fund's goal is to meet or exceed the Fund's actuarial target rate of return in order to maintain and improve upon its funded status.

The Fund is currently invested in stocks (domestic and foreign), fixed income securities (domestic), real estate, private equity, and hedge funds.

The following was the Board's adopted asset allocation policy as of December 31, 2019 and 2018:

Asset class	2019 Target	2018 Target
Domestic equity	25 %	25 %
International large cap equity	9	9
International small cap equity	2	2
Global/emerging markets	7	7
Fixed income	25	25
Real estate	9	9
Private equity	10	10
Hedge funds	4	4
Hedge funds – opportunistic	2	2
Risk parity/diversified beta	5	5
Cash	2	2
Total	100 %	100 %

Notes to Financial Statements December 31, 2019 and 2018

(c) Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The following is a listing of the Fund's fixed income investments and related maturity schedule (in years) as of December 31, 2019 and 2018.

		2019

	\$	390,262,761	2,856,494	149,388,805	139,977,786	98,039,676

The Fund's guidelines limit its effective exposure to interest rate risk by benchmarking the separately managed fixed income investment accounts to an intermediate duration benchmark with a weighted average duration of four to five years. The Fund further constrains its actively managed fixed income portfolios to maintain a duration that shall not exceed 1.5 times the benchmark duration. The manager of each fixed income portfolio is responsible for determining the maturity and commensurate returns of his/her portfolio. Fixed income managers are also expected to report risk statistics and give a description of portfolio characteristics, including quality, duration, allocation by security type, and yield to maturity.

The collateralized mortgage obligations (CMOs) held by the Fund at December 31, 2019 and 2018 are highly sensitive to changes in interest rates.

(d) Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations.

Notes to Financial Statements December 31, 2019 and 2018

The Fund's Board does not have a formal investment policy governing credit risk; each fixed income securities investment manager is given a specific set of guidelines to invest within based on the mandate for which it was hired. The Fund expects all investment managers to perform their fiduciary duties as prudent people would and conform to all state and federal statutes governing the investment of the funds. Managers are to adhere to the philosophy and style that was articulated to the Retirement Board at the time of hire. The fixed income investment managers have full discretion to invest in fixed income securities in order to exceed their strategy specific benchmarks.

The Fund's fixed income investments as of December 31, 2019 and 2018 were rated by Standard and Poor's and/or an equivalent national rating organization, and the ratings are presented below using the Standard & Poor's rating scale:

2019

^{*} Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk.

Notes to Financial Statements December 31, 2019 and 2018

(e) Concentration Risk

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The Fund places a 5% limit on the individual exposure to any single issuer at the time of purchase. The Fund has no investments with the exception of commingled funds, at fair value, that exceed 5% of the Fund's total investments as of December 31, 2019 and 2018. The Fund does have investments in individual commingled funds and trusts that represent more than 5% of the Fund's assets, but in each case, these investments are in institutional commingled funds that are invested in diversified portfolios.

(f) Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Fund's exposure to foreign currency risk is attributable to its investments in separately managed and commingled international equity mutual funds and trusts that are invested in diversified portfolios of international stocks that are denominated in foreign currencies. The Fund's combined policy target allocation to all non-U.S. securities is currently 18.0% of the Fund's total assets. Currency hedging is permitted for defensive purposes. Currency hedging shall be effected through the use of forward currency contracts, which are described more fully in note 2.

Risk of loss arises from changes in currency exchange rates. The Fund's exposure to foreign currency risk as of December 31, 2019 and 2018 are presented on the following tables:

Notes to Financial Statements December 31, 2019 and 2018

(g) Securities Lending Transactions

The Fund participates in the State Street Bank and Trust Company securities lending program by lending securities to borrowers (subject to borrower limits and program guidelines) and earning additional income, which is included in net investment income in the statement of changes in fiduciary net position. The lending program loans domestic and international equities, real estate investment trusts and fixed income securities for collateral with a concurrent agreement to return the collateral for the same securities in the future.

The Fund did not incur any losses on loaned securities during the year ended December 31, 2019 and 2018. The securities are monitored and valued on a daily basis by the custodian to ensure that the loans are properly collateralized. The collateral value is required to be at least 102% of the fair value of loaned domestic investments and a collateral value of at least 105% of the fair value on loaned international investments. Collateral can consist of both cash and securities. Should the collateral percentage levels fall below the stated figures, the borrowers are required to provide additional collateral to proper levels. The indemnification that State Street Bank provides the Fund in regard to loan risk is that should a borrower default on returning a security from loan, the collateral held is used to buy the security to be returned to the Fund. Any shortfall of proceeds to purchase the securities is taken on by State Street Bank. Since loans are terminable at will, loan durations do not generally match the duration of the investments made with the cash collateral.

Loaned securities are included in the statement of fiduciary net position since the Fund maintains ownership. For loans collateralized by cash, the value of the collateral is recorded as a liability offsetting the cash collateral recorded as an asset. The cash collateral as of December 31, 2019 and 2018 was \$22,457,542 and \$49,933,994, respectively. For loans having collateral other than cash, the related collateral securities are not recorded as assets in the statement of fiduciary net position, and a corresponding liability is not recorded, since the Fund cannot pledge or sell the collateral securities, except in the event of a borrower's default.

At December 31, 2019 and 2018, the fair value of loaned securities outstanding, included in investments, was approximately \$21,965,011 and \$49,125,668, respectively.

(h) Commitments

At December 31, 2019 and 2018, the Fund had contractual commitments to provide approximately \$82.6 million and \$60.1 million, respectively, of additional funding for alternative investments and real estate.

(i) Money-Weighted Rate of Return

The Annual money-weighted rate of return on the Fund's investments calculated as the internal rate of return on the pension fund net of investment expenses for the years ended December 31, 2019 and 2018 is 17.67% and (3.37)%, respectively. A money weighted return expresses investment performance net of pension plan investment expense, adjusted for the changing amounts actually invested.

(4) Fair Value Measurements

The Fund measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. The fair value gives the highest priority to unadjusted quoted

Notes to Financial Statements December 31, 2019 and 2018

prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). These levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices for identical assets or liabilities in active markets
- Level 2 Observable inputs other than quoted prices in active markets for identical assets and liabilities.
 Level 2 inputs include the following:
 - o Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - o Inputs other than quoted prices that are observable for the asset or liability, such as:
 - 1. Interest rates and yield curves observable at commonly quoted intervals
 - 2. Implied volatilities
 - 3. Credit spreads
- Level 3 Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's assumptions.

The following tables' set forth by fair value hierarchy level, the Fund's assets carried at fair value December 31, 2019 and 2018. Certain reclassifications have been made to the 2018 schedule in order to conform with the current year presentation.

Notes to Financial Statements December 31, 2019 and 2018

Commingled funds are typically structured as an investment vehicle created by the Investment Manager to execute a specific investment strategy. Some investment strategies are only pursued by commingled accounts. Mutual funds and/or other types of commingled investment vehicles, including, but not limited to, Alternative Investments, may provide lower costs and better diversification than can be obtained with a separate account that pursues the same investment objectives. The fair value of the hedge fund of funds, private equity funds and real estate funds are not rated funds. The fair values of these funds are based on net asset value calculated in accordance with the general partner's fair valuation policy as of the measurement date and are annually audited separately.

The following represents the significant investment strategies and terms on which the Fund may redeem investments for those investments measured at the NAV (or its equivalent) as a practical expedient:

Investments Measured at NAV

	Fair Value ember 31, 2019	Fair Value ember 31, 2018	Com	al Unfunded mitments as of mber 31, 2019	Redemption Frequency if Currently Eligible	Redemption Notice Period

Total Investments Measured at NAV	\$ 436,154,181	\$ 395,101,107	\$	82,613,925		

¹ This category includes two diversified beta investment managers who utilize a risk premium capture strategy that seeks to generate returns by investing in equity, bond and commodity markets using a risk-balanced investment process. The managers provide monthly liquidity with either 15 or 30-day notification.

² This category includes two fund of hedge fund managers; the managers provide quarterly liquidity with 30 - 90-day notice.

³ This category includes one opportunistic hedge fund manager who is not subject to redemption and is normally returned through distributions as a result of the liquidation of the underlying assets over a period of approximately three to seven years.

⁴ This type includes private equity funds that invest in nonmarketable securities of private companies, which ultimately may become public in the future and whose strategies include buyout, growth equity, venture, mezzanine debt, distressed debt, secondary fund of funds or special situations. Generally, each fund in this category may not be subject to redemption and is normally returned through distributions as a result of liquidation of the underlying assets over a weighted average period of approximately nine years.

Notes to Financial Statements December 31, 2019 and 2018

(5) Related-Party Transactions

The Fund invests certain cash in a money market fund, the State Street Bank and Trust Company Short Term Investment Fund, which is sponsored by the Fund's custodial bank. The total value of the funds held at December 31, 2019 and 2018 was \$51,484,334 and \$37,155,764, respectively.

The Fund invests in the AFL-CIO Housing Investment Trust and the AFL-CIO Building Investment Trust, two for-profit investment programs of the AFL-CIO. The total value of AFL-CIO Housing Investment Trust at December 31, 2019 and 2018 was \$50,977,072 and \$51,913,451, respectively. The total value of AFL-CIO Building Investment Trust at December 31, 2019 and 2018 was \$16,796,387 and \$16,290,413, respectively.

(6) Net Pension Liability

The components of the net pension liabilities of the MBTA Retirement Fund as of December 31, 2019 and 2018 are shown as follows (amounts in thousands):

	_	2019	2018
Total pension liability	\$	3,021,110	2,916,801
Plan fiduciary net position		(1,614,144)	(1,449,695)
Fund's net pension liability	\$	1,406,966	1,467,106
Plan fiduciary net position as a percentage of total pension			
liability		53.43 %	49.70 %

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of December 31, 2019 and 2018, using the following actuarial assumptions:

- As of 12/31/19, a table of increases based on years of service, with rates of increase declining from 8% per year for the newly hired to 2.75% per year with 15 or more years of service
- Investment rate of return compounded annually in 2019 and 2018 of 7.25% and 7.50% per annum respectively
- Inflation rate of 2.75%

For the actuarial valuation as of December 31, 2019 and 2018, the RP-2014 Blue Collar Mortality Tables with fully generational projection using Scale MP-2018 are used for all active participants and deferred vested

⁵ This category includes four open-ended real estate funds that invest directly in real estate and real estate related assets, including retail, industrial, office, residential and hotels. Investments in this category can be redeemed quarterly upon 30 days to one-year notice.

⁶ This category includes funds that invest directly in real estate and real estate related assets, including retail, industrial, office, residential and hotels. Generally, investment in each fund in this category may not be subject to redemption and is normally returned through distributions as a result of the liquidation of the underlying assets over a weighted average period of approximately seven or more years.

Notes to Financial Statements December 31, 2019 and 2018

participants. 94.5% of the RP-2014 Blue Collar Mortality Tables with fully generational projection using Scale MP-2018 are used for all retirees. 107.5% of the RP-2014 Blue Collar Mortality Tables with fully generational projection using Scale MP-2018 are used for all beneficiary participants. The RP-2014 Disabled Mortality Table with fully generational projection using Scale MP-2018 are used for the period after disability retirement. Among pre-retirement deaths, 7.50% are assumed to qualify for accidental death benefits.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period from January 1, 2013, through December 31, 2017. Actuarial valuations attempt to estimate costs associated with the pension fund based on a number of demographic, economic and retirement experience assumptions. Experience studies are required by statute to be conducted every five years to review experience in comparison to these assumptions and to provide recommended changes to assumptions.

The long-term expected rate of return on Fund investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension Fund investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of long-term arithmetic rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2019, are summarized in the following table:

	Target asset a	allocation	Long-term expected real rate of return			
Asset class	2019	2018	2019	2018		
Equity	43 %	43 %	8.39 %	7.91 %		
Fixed income	25	25	1.99	2.36		
Alternatives	30	30	7.16	6.67		
Cash	2	2	0.53	1.06		

Nominal long-term expected rates of return for these asset classes are equal to the sum of the above expected long-term real rates and the expected long-term inflation rate of 2.75%.

(a) Discount Rate

The discount rate used to measure the total pension liability at December 31, 2019 and 2018, was 7.25% and 7.50%, respectively. The projections of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments to current Fund members. Therefore, the long-term expected rate of return on the plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(b) Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability as of December 31, 2019 and 2018, calculated using the discount rate of 7.25% and 7.50%, respectively, as well as what the Fund's net pension liability would be

Notes to Financial Statements December 31, 2019 and 2018

if it were calculated using a discount rate that is one percentage point lower 6.25% and 6.50% or one percentage point higher 8.25% and 8.50% than the current rate (amounts in thousands):

			2019	
		1% Decrease (6.25%)	Current discount rate (7.25%)	1% Increase (8.25%)
Net pension liability	\$	1,714,806	1,406,966	1,145,684
	-		2018	
		1% Decrease (6.50%)	Current discount rate (7.50%)	1% Increase (8.50%)
Net pension liability	\$	1,760,361	1,467,106	1,217,856

(7) Subsequent Events

On March 11, 2020, an outbreak of the novel strain of coronavirus known as COVID-19 was declared a pandemic by the World Health Organization. Due to this, the financial markets have experienced and may continue to experience significant volatility. While much is still being learned, this outbreak is expected to affect the global economy as financial markets have declined. Management and the Fund's investment advisor will continue to monitor market conditions as information is available to evaluate the potential impacts, if any, on the value of its various investments and operations. Management is not yet able to quantify the impact but is continuing to monitor returns and investments.

There have been no other subsequent events though June 22, 2020, the date that the Fund's financial statements were available to be issued, that require recognition or disclosure.

Required Supplementary Information
Schedule of Changes in Net Pension Liability and Related Ratios
(Unaudited)

Change of Assumptions:

- 2019: Discount rate decreased from 7.50% to 7.25% resulting in an increased net pension liability totaling \$69.3 million.
- 2018: Salary scale decreased the net pension liability by \$(59.6) million, mortality rates increased the net pension liability by \$6.0 million, termination rates increased the net pension liability by \$9.4 million, and retirement rates increased the net pension liability by \$88.1 million, resulting I an increased net pension liability totaling \$43.9 million.
- 2017: Discount rate decreased from 7.75% to 7.5% resulting in an increased net pension liability totaling \$128.7 million.
- 2015: Retirement rates decreased the net pension liability by \$(41.9) million, mortality rates increased the net pension liability by \$25.4 million, termination rates increased the net pension liability by \$8.9 million, and the disability rates increased the net pension liability by \$0.9 million, resulting in a decreased net pension liability totaling \$(6.7) million.

See accompanying independent auditor's report

Notes to Required Supplementary Information (Unaudited)

Actuarial Assumption and Methods Used to Determine Contribution Rates

Actuarially determined contributions are calculated as of the December 31 preceding by six months of the start of the fiscal year in which contributions are made. For example, the contribution calculated in the December 31, 2018 actuarial valuation was to be made during the period from July 1, 2019 through June 30, 2020.

Methods and assumptions used to determine the contributions for calendar 2019 and 2018 (based on 2018 and 2019 actuarial valuations).

- Salary As of 12/31/19, a table of increases based on years of service, with rates of increase declining from 8% per year for the newly hired to 2.75% per year with 15 or more years of service
- Actuarial cost method Entry Age Normal
- Amortization method Closed period (specified below); installments increase at the rate of 4% per year
- Remaining amortization period 20 years (2019 valuation), 21 years (2018 valuation)
- Asset Valuation method Five-year phase-in smoothing method
- Investment rate of return 7.25% (2019 valuation), 7.50% (2018 valuation) net of pension plan investment expense.
- Retirement Age Probabilities of retirement are based on table that reflects both age and service
- Mortality
 - For the actuarial valuation as of December 31, 2019 & 2018, the RP-2014 Blue Collar Mortality Tables with fully generational projection using Scale MP-2018 are used for all active participants and deferred vested participants. 94.5% of the RP-2014 Blue Collar Mortality Tables with fully generational projection using Scale MP-2018 are used for all retirees. 107.5% of the RP-2014 Blue Collar Mortality Tables with fully generational projection using Scale MP-2018 are used for all beneficiary participants. The RP-2014 Disabled Mortality Table with fully generational projection using Scale MP-2018 are used for the period after disability retirement. Among pre-retirement deaths, 7.50% are assumed to qualify for accidental death benefits.
